*Positive Grid's desktop demos have these limitations and should be used for auditioning only:

1) Within the first 7 days, BIAS Amp and BIAS FX will bypass the signal randomly for 3 seconds every 5 minutes.
2) After the 7-day trial period, BIAS Amp and BIAS FX will bypass the signal randomly for 3 seconds every 20 seconds.

*The expansion packs (Metal Signature Pack, Bass Expansion Pack, Acoustic Expansion Pack) are not included in any of the license tiers listed above. They must be purchased separately. For more information on the expansion packs, please see below or the BIAS FX section in our help center: https://help.positivegrid.com/hc/en-us/categories/200409255-BIAS-FX

Metal Expansion Pack

Bass Expansion Pack

Acoustic Expansion Pack

*Presets on ToneCloud that contain pedals/effects and/or amps that are only available to a particular license tier will also require you to own the appropriate license in order to use those presets. The same also applies to presets that include pedals/effects and/or amps from the expansion packs.
